---

## Personal Summary

---

MERN Stack Developer with 9+ months of experience in developing and optimizing full-stack applications. Passionate about building scalable web applications and solving complex problems with efficient solutions. Successfully improved application performance and user engagement through optimized coding practices and innovative solutions.

## Technical Skills

---

- **Frontend:** HTML, CSS, JavaScript, React, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **Tools:** Git, GitHub

## Experience

---

### MERN Stack Developer

Daya Consultancy Services (7 months)

- Developed a webinar platform using VideoSDK, enhancing live interaction and increasing engagement by 30
- Enhanced multiple features in education platform Steps of Learning Process (SOLP), optimizing performance and reducing load time by 40
- Resolved security vulnerabilities in a partially built timesheet system, improving security by 50

## Projects

---

### Portfolio Website

- Built a personal portfolio using React and Tailwind CSS to showcase my latest projects and skills.
- Included detailed sections for projects, skills, and contact using responsive and accessible design principles.
- Integrated contact form with EmailJS for real-time communication.

### ResumeAI

- Designed and developed a resume-building platform offering 10-15 customizable templates.
- Implemented real-time dynamic preview, enhancing user experience.
- Added a scanning feature that allows users to scan their existing resumes; the app extracts all details and auto-fills the form for an improved user experience.
- Supports both single-page and multi-page resume templates for various professional levels.

## Education

---

### Bachelor of Science in Physics

U.N. Autonomous College, CGPA: 7.6
