Professional Summary

MERN Stack Developer with 1 year 9 months of hands-on experience in designing, developing, and deploying full-stack web and mobile applications. Skilled in React.js, Next.js, React Native, Node.js, Express.js, and MongoDB, with strong expertise in end-to-end project delivery including frontend development, backend architecture, database design, and deployment on AWS EC2, cPanel, and GoDaddy. Built multiple production-ready applications independently and mentored students in JavaScript and React.

Technical Skills

Frontend: React, Next.js, JavaScript, React Native, HTML, CSS, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js

Database: MongoDB, SQL

Deployment: AWS EC2, cPanel, GoDaddy, Vercel

Tools: Git, GitHub

Experience

Software Developer Daya Consultancy Services (1 yr 9 mo)

- Independently designed, developed, and deployed full-stack web applications using MERN and Next.js stacks.
- Built key projects including: **EventLoop**, **Oneplay Job Portal**, **MLA Grievance Portal**, **Hospital Booking System**, **SOLP**, and many more.
- Optimized application performance, designed backend APIs, handled database architecture, and managed deployment on AWS EC2, cPanel, and GoDaddy.
- Mentored React students, improving communication, problem-solving, and technical guidance.

Projects

SOLP Learning Platform (Web and Mobile)

- Learning Management System with Admin, Mentor and Student roles.
- Users can purchase courses, watch video lessons, access notes, submit assignments, participate in discussions, and complete projects.
- Mobile application includes AI-powered quizzes, daily questions, streak tracking, leaderboards, and full course access.

Oneplay Job Portal (Web and Mobile)

- Recruitment platform connecting companies, recruiters, and job seekers.
- Recruiters can create, edit, and manage jobs, search candidates using filters, send connection requests, and communicate through real-time chat and notifications.
- Candidates can apply for jobs, track application status, save jobs, manage profiles, and chat with recruiters after request approval.

Other Projects: EventLoop (event management platform), EMS (employee management system), CMS (lead generation and marketing automation), Inventory Billing Management System, MLA Event Grievance Portal, Hospital Slot Booking System, Resume Builder Application, Fitness Management Application, and several other production-ready web and mobile applications.

Education

Bachelor of Science in Physics

U.N. Autonomous College — CGPA: 7.6
